

## Contractor License Renewal

All contractor licenses expire on September 30, 2004. Renewal applications will be mailed out mid-August. If you do not receive a renewal application by September 1<sup>st</sup>, please call the Licensing Branch at (808) 586-3000.

All contracting entities renewing an active license must submit a State tax clearance and provide verification of liability and/or workers' compensation insurance if our records indicate that the insurance expired prior to September 30.
